SECOND PLACE FOR LOWDEN?

Illinois Man May Be Coolidge's Running Mate.

LOOMS LARGE AS POSSIBILITY

Former Attorney General Daugherty in Alleged Contest to Recapture Control of the Ohio Republican Organization—Successor to Rud Hynicka to Be Selected Tuesday—Mrs. Upton Tenders Resignation.

Cleveland, June 6.—Ohio Republican leaders here predict a fight by Harry M. Daugherty to recapture control of the Ohio Republican organization.

It is said that, with the aid of Senator Frank B. Willis, Daugherty, who is an Ohio delegate-at-large, will make his fight around a successor to be chosen for Rud H. Hynicka of Cincinnati as national committeeman from Ohio. Formal selection of Hynicka's successor will take place next Tuesday, according to indications. Louis Brush of Salem, who has been active in behalf of Coolidge in the pre-convention campaign, will have the support of Willis and Daugherty, it is said.

Mrs. Harriet Taylor Upton of Warren, O., retired as vice chairman of the executive committee of the Republican national committee. This was made known by William M. Butler, manager of President Coolidge's pre-convention campaign. Mrs. A. T. Hert of Louisville, widow of the late national committeeman from Kentucky, will be recommended for the vice chairmanship. She will have charge of the work among the women in the campaign.

Announcement was made by Mr. Butler of the names of three delegates who will make addresses seconding the nomination of President Coolidge. They are Isaac Meekins of North Carolina, C. H. Carey of Oregon and Representative Martin B. Madden of Illinois.

Party leaders say President Coolidge's name will be the only one presented to the Republican convention.

The name of Senator Johnson will not be presented to the convention, the California senator having released the South Dakota delegation recently. Senator La Follette, whose Wisconsin delegation always votes for him irrespective of whether his name is placed in nomination, probably will follow their usual custom next Thursday. No arrangements have been made for placing Senator La Follette's name before the convention.

Ex-Governor Frank O. Lowden of Illinois looms large at present as President Coolidge's running mate. Unless he takes some definite public stand against his being named, or Coolidge indicated he wants some one else, it seems probable the Illinois man will be awarded the vice presidential nomination.

According to reports from Washington Lowden would be acceptable to President Coolidge. Lowden is a millionaire farmer.

THREATEN TO RESIGN

Newark City Employees Demand Scalp of Mayor Stevens.

Newark, O., June 6.—City employees in the waterworks service, street cleaning and cemetery departments threaten to resign unless Mayor W. H. N. Stevens tenders his resignation by midnight tonight. The employees said they will not stop with resigning from office, but will try to bring about the mayor's removal by filing with Governor Donahay charges of misfeasance, nonfeasance and malfeasance. They base their charges on the alleged habitual absence of the mayor from the city when his counsel is needed and on his criticism of necessary action taken by them during his absence.

Mayor Stevens admitted he has had trouble with Charles Taylor, director of service; Charles Harris, cemetery superintendent, and George Gearhart, street cleaning superintendent. He said his trips were taken in connection with the city's business.

Engineers Favor LaFollette.
Cleveland, June 6.—Members of the Brotherhood of Locomotive Engineers in triennial convention here endorsed all the policies of Warren Stone, grand chief of the order. The action signifies that the organization is behind the independent movement of Senator LaFollette. Stone recently endorsed LaFollette's boom.

COL. PERRY D. MILES

Awarded Cross For Distinguished Service at Manila in 1899.

CONTESTS DECIDED

Howard Faction In Mississippi Wins Convention Seats.

Cleveland, June 6.—The Republican national committee voted to seat the delegates of the Perry W. Howard faction of Mississippi. These places were contested by the delegates of M. J. Mulvihill, national committeeman. The defeat of Mulvihill will probably result in the election of Howard as the next national committeeman from Mississippi.

The committee voted 22 to 14 to seat the delegates of Colonel Henry Lincoln Johnson, colored, of the old organization in Georgia. The delegates were contested by a faction led by J. L. Phillips.

The Johnson-Phillips contest was preceded by the District of Columbia contest. William T. Gallihier and Thomas L. Jones were seated. They were opposed by Aaron Bradshaw and John T. Rhines.

OIL LAND LEASES HELD ILLEGAL

Senator Walsh Presents Report to Committee.

LONG INVESTIGATION ENDED

Charge Made That the Oil Reserve Leases Were Corrupt, but No Names Are Mentioned In This Connection—Fall, Sinclair and Others Scored In the Senator's Report, Which Is Accepted.

Washington, June 6.—Senator Thomas J. Walsh in his report to the senate oil committee denounced as illegal and corrupt the leases of the three naval oil reserves made by former Secretary of the Interior Albert B. Fall.

The committee accepted the Walsh report, which brings to a conclusion the sensational inquiry which involved men high in public life and resulted in the resignation of a cabinet officer. Indictments now are being sought against the principals and suit is being prosecuted for cancellation of the leases.

Recommendations are made in the report for tightening of existing governmental regulations, so that the possibility of similar leases of the public domain will be diminished.

The report was written by Senator Walsh, who has been the leading figure in the investigation begun nine months ago by the senate public lands committee. A minority report may be submitted later by Senator Spencer (Rep., Mo.), who objects to many features of the Walsh report. The chief features of the Walsh report are:

Denunciation of the leases made by former Secretary of the Interior Fall to Harry F. Sinclair and E. L. Doheny on the alleged ground that they were made in "flagrant disregard of law."

A severe arraignment of Fall for accepting "loans" of \$25,000 from Sinclair and \$100,000 from Doheny, with an attack upon former Secretary of the Navy Denby, charging dereliction of duty in failing to investigate the leases before affixing his signature to them.

A suggestion that hereafter no lease of government oil lands should be made without competitive bidding and then only in case the lands are suffering from drainage by adjacent properties.

A charge that the leases are "corrupt" without mentioning names of those against whom corruption is charged, but aiming it at the half dozen principals in connection with the leases.

An attack upon Fall for using the marines to chase from Teapot Dome certain squatters, who were contesting Sinclair's rights.

Denunciation of Sinclair for having paid millions of dollars to "irresponsible" claimants "with more or less shadowy claims."

DECLINES PREMIERSHIP

Paris, June 6.—Edouard Herriot, mayor of Lyons, refused the premiership of France, which was offered him by President Millerand. The president then sent for Senator Milles LaCroix. Later it was said that the senator's visit was merely for purposes of consultation.

Herriot's accession to the post vated by the resignation of Premier Poincare June 1 had been a foregone conclusion and his refusal came as a surprise. Opposition of Millerand to the Socialist program on which Herriot would take office and reciprocal opposition to Millerand himself on the part of many of Herriot's followers was believed the real reason for his unexpected refusal of the post.

SWEEP BY TIDAL WAVE

Peruvian Coast Towns Flooded and Lives Believed Lost.

Lima, Peru, June 6.—Ships were sunk, towns flooded and several lives are believed lost, the result of a tidal wave which swept the Peruvian coast. A huge wave swept down on the coast towns, driving vessels on the rocks and swamping many small craft. The German barkentine Lemkenhaven of Hamburg capsized before the force of the wave and her captain was drowned. The Norwegian bark Ejong also was driven on the rocks and is a total loss. Property damage along the coast is believed to be heavy. Relief measures have been taken.

S. M. SHORTRIDGE

Recent Portrait of Senator From California.

DOINGS IN OHIO

Appeals to Supreme Court.

Columbus, June 6.—George H. Beazell of Cincinnati, member of the defunct brokerage firm of Beazell & Chatfield, convicted of embezzlement and sentenced to the Ohio penitentiary along with his partner, William H. Chatfield, appealed his case to the state supreme court. Beazell gives 28 alleged grounds for error proceedings in his brief. Chief Justice Marshall issued a stay of sentence for Beazell pending hearing and decision on his appeal. Chatfield, who was the Republican nominee for lieutenant governor in 1922, is expected to file a similar appeal in a few days.

Must Reduce Steam Pressure.

Columbus, June 6.—Pressure of approximately 20,000 steam boilers used in factories, public buildings and various institutions must be reduced at least 10 per cent before July 1, according to an order issued by Herman P. Witter, director of public relations. Hundreds of boilers of obsolete types and regarded as dangerous in construction have been worked out gradually during the last three years in pressure reduction orders.

Means New Rail Equipment.

Cleveland, June 6.—Injunctions prohibiting a \$45,630,000 equipment trust agreement between the New York Central railroad, the Big Four and subsidiaries, were denied by Federal Judge D. C. Westenhaver. As a result of the ruling the agreement probably will be completed and new equipment will be sent over lines covering half of the United States, it is said.

Chaplains Selected.

Cleveland, June 6.—Bishop William P. Anderson of the Cincinnati Methodist Episcopal church, was selected as chaplain for the first session of the Republican convention next week. Rabbi Stephen S. Wise of New York will open the second day's session and Bishop Schrembs of Cleveland Catholic diocese will open the third and probably final session on Thursday.

Baker Receives Degree.

Springfield, O., June 6.—Newton D. Baker, former secretary of war, received the degree of doctor of laws from President Rees E. Tulloss of Wittenberg college. The presentation was made on the campus in line with a long established custom. Mr. Baker's father attended Wittenberg in 1860.

Train Hits Automobile.

Bellevue, O., June 6.—Grant Karr, 60, of Carey, state inspector of seeds and fertilizer, was instantly killed and his wife perhaps fatally injured when their automobile was demolished by a train on a crossing two miles east of here.

Donahay Weighs In.

Columbus, June 6.—Governor Donahay filed announcement of his candidacy for the Democratic nomination for governor. Five citizens of Tuscarawas county signed the governor's declaration.

Machine Ditched.

Toledo, June 6.—Daniel A. Lambert, 63, of North Baltimore (Wood county), road worker, was killed when the automobile he was driving hit a rut and upset into a ditch.

Found Guilty In Drug Case.

Columbus, June 6.—Thomas Zazo was found guilty of violating the federal anti-narcotic act by a federal grand jury here. He was indicted on two counts by the last federal grand jury. Sentence was postponed. Zazo's indictment resulted from a raid on his residence on March 2, at which time federal narcotic inspectors apprehended him with a quantity of cocaine, valued at about \$7,000, in his possession.

DAUGHERTY CASE AIRED IN SENATE

Brookhart Reviews Testimony in the Investigation.

FESS TAKES PART IN DEBATE

Defends Former Attorney General's Refusal to Appear as a Witness Before the Senate Committee. Brookhart Alleges Plot to Protect Criminals Existed in the Daugherty Household.

Washington, June 6.—Debate in the senate followed Senator Brookhart's review of the testimony in the investigation of the record of former Attorney General Daugherty.

Senator Fess, engaging in debate over Harry M. Daugherty's refusal to testify before the senate committee, defended Daugherty's refusal to appear as a witness. "What I say, I say with great respect for the committee," Fess told the senate. "If I were in Daugherty's place and had witnessed the sort of testimony which had appeared before the committee, I would not have appeared, and I say this as a responsible member of this body."

Senator Brookhart, replying, said Daugherty "changed his mind about appearing before the senate investigating committee after 'starting evidence' against him had been adduced."

Senator Brookhart in reviewing the testimony declared that it shows "large bootleggers in New York paid large sums to Jesse Smith and his will shows it." "The evidence is so well proven that there can be no doubt that a conspiracy to protect criminals existed in Harry M. Daugherty's household. The relationship between Mr. Smith and Mr. Daugherty was so close that every word of the testimony becomes evidence against Mr. Daugherty himself."

The Iowa senator said the committee sought tax records on Mr. Daugherty's own financial status and found little property credited to him in Ohio. Senator Fess interrupted to say that Ohio laws did not require reporting of corporation stocks or other security for taxation. "I understand that," Senator Brookhart replied, "and that is why the committee wanted him to explain."

Senator Fess cited the federal court opinion handed down in Ohio, holding that in the M. S. Daugherty litigation the senate exceeded its authority. Senator Brookhart said the court did not forbid Harry Daugherty to appear and Senator Norris (Rep., Neb.) suggested that "anybody would wish to appear under the circumstances."

Chairman Brookhart presented a resolution authorizing the attorney general to appeal to the supreme court from the Ohio district court's decision releasing M. S. Daugherty, who refused to obey the investigating committee's subpoena.

Boulay Makes Reply.

Columbus, June 6.—L. A. Boulay, state highway director, in reply to the criticism of Chairman Charles W. Montgomery of the Republican state committee, to the effect that the highway department had been guilty of extravagance in the purchase of automobiles, declared that the junking of good automobiles during the administration of former Governor Davis necessitated the highway department purchasing new machines. "The three additional cars are needed for bridge inspection work on 600 miles of gravel highway construction in southern Ohio," Mr. Boulay said.

AIRPLANES IN CRASH

Pilot and Boy Killed at Kelly Field in Texas.

San Antonio, Tex., June 6.—Lieutenant Stewart L. Thompson was killed at Kelly field when his airplane collided in midair with one piloted by Lieutenant Will W. White. The latter leaped to safety in a parachute. Jose Ramos, 11, chopping cotton in a field, was killed when Thompson's plane fell on him. The boy was watching the planes when they crashed. Apparently paralyzed by fear, he did not move as the plane crashed down upon him. So far as is known, it is the first case of its kind on record.

Joseph Hope and Walter Scoville, firemen, were killed and three others were injured when they were caught under a falling wall of the Stratton-Warner Hardware company's warehouse at Little Rock, Ark., the interior of which was destroyed by fire.

PROHIBITIONISTS MEET

Disintegration Proposal Encounters Bitter Opposition.

Columbus, June 6.—The proposal submitted to the delegates to the Prohibition national convention that the party be disintegrated, or at least refrain from nominating presidential and vice presidential candidates, will meet with bitter opposition on the convention floor today. Dr. Aaron Watkins, Cincinnati, presidential candidate of the party in 1920, is leading the fight against it. He declared "the party will not dig its own grave until the convention receives telegrams notifying it that its work is done," and Watkins said he had assurances that "that work will not come."

Miss Esther H. Elfresh, state president of the New Jersey W. C. T. U., vice chairman of the convention, seconded the remarks of Dr. Watkins, and declared against any proposal of the Prohibitionists going to either of the major political parties for support of legislation desired.

J. A. Murray of Nebraska presented the memorial recommending party disintegration. A report on the committee of credentials showed that 21 states were represented with 112 delegates, Ohio and Pennsylvania being first place in the number of delegates, with 25 each. H. P. Faris of Missouri, who delivered the keynote address as temporary chairman, was named permanent chairman, with William F. Varney of New York permanent secretary. Faris charged President Coolidge and the late Presidents Wilson and Harding with obstructing prohibition.

SLAYERS INDICTED BY THE GRAND JURY

Murder and Kidnaping to Ransom the Charges Made.

Chicago, June 6.—Murder and kidnaping for ransom are the charges Nathan Leopold, Jr. and Richard Loeb, students, who confessed to the abduction and murder of Robert Franks, 14-year-old schoolboy, will have to fight in the courts.

True bills were reported by the grand jury against each of the youthful prisoners, who are sons of millionaires. Both kidnaping for ransom and murder are punishable by death in this state.

The defensive machine is preparing to start its bombardment in an attempt to break down the damaging case against the slayers. Clarence Darrow, who heads the defense, makes an important point of the fact that Leopold and Loeb signed only stenographic notes of their confession to the murder, and no transcripts were made and will seek to bar testimony of all who heard the incriminating statements made by the two youths. An initial defense fund of \$1,000,000 has been placed in Darrow's care. He is to use this in obtaining the best possible legal talent.

Armed guards have been set over the evidence, which includes the blood-stained clothing worn by the Franks boy, the tape wrapped chisel, with which he was killed, and remnants of an automobile robe, in which his body was wrapped.

The names of Samuel Untermyer, Charles Erbe, John "Ropes" O'Brien and William Travers Jerome were reported as under consideration for retention by the defense.

Crabbe Undecided.

Columbus, June 6.—Attorney General Crabbe said he would announce next Monday whether he will be a candidate for the Republican nomination for governor or seek to succeed himself as attorney general. He said he had received numerous letters from drys all over Ohio urging him to get in the race. According to Crabbe, these writers fear James A. White is too radical to garner enough liberal votes to elect him and that they fear his nomination may result in a Democratic victory.

Drug Stores Held Up.

Cleveland, June 6.—In robbing the Burk Drug company's store here of \$236 and a \$38 check, a bandit fired a shot at Joseph Aronovitz, clerk, after the clerk had hurled a chair at him. Half an hour later the same bandit entered the Vixier Pharmacy company and took \$34 from the cash register and escaped.

Three men were killed when the boiler of a locomotive on a Pittsburgh and Lake Erie passenger train exploded at Alequippa, Pa. The dead are: George Clark, engineer, of McKees Rocks; Urban Kuechler, fireman; Jesse R. Meade, road foreman of engines.

No Pure Guarani Left

While there are plenty of wild Indians in parts of Paraguay, no living man ever saw a pure-blooded Guarani. Inhabiting the alluvial and easily accessible sections, they were conquered and assimilated by the Spanish centuries ago, ceasing to exist as a separate people.

The common people of Paraguay, however, speak Guarani more readily than Spanish and nearly all place names are in the language. It is a very simple tongue with a total vocabulary of less than 800 words. The only numerals are 1, 2, 3 and 4.

Cleanliness was a virtue of the Guarani. No matter how ragged and dilapidated a Paraguayan peon may be his clothes and his person are clean. That he was not unskilled in certain artistic crafts is shown by the exquisite handiwork of lace, peculiar to Paraguay, the most sheer, cobwebby, delicately beautiful thing of its kind in all the world. The art of making it has been lost.—Detroit News.

FICKARDT'S ROUP AND CHOLERA DROPS

On May 7, 1924, I called on Elmer Doner, Ashville, R. F. D. No. 1, and he told me the following:—

I bought four hundred (400) chicks of a hatchery and while there I bought some tablets to prevent disease or cure them if they were sick. Very soon the chicks began to die. I tried the tablets that I had obtained at the hatchery. I then bought other tablets liquids and powders, all nationally advertised remedies, but none of them did any good and my chicks kept on dying until I had lost 250.

A friend of mine told me of Fickardt's Roup and Cholera drops, at that time I had ten sick chicks in a pen separated from the well stock and I really considered them as good as dead.

I began to use Fickardt's Roup and Cholera drops with all my chicks, both well and sick. Two of the sick ones died, the other eight recovered and I have not lost any others since I began to use Fickardt's Roup and Cholera drops over a month ago.

I would have probably thought that the disease had run its course if it had not been for the fact that these that were sick recovered, but seeing the sick ones get well has convinced me that Fickardt's Roup and Cholera drops cured them.

F. L. FICKARDT
Manufacturer,
Circleville, Ohio.

Winnebago Indians Like to Wear Fancy Clothes

As clothing the early Winnebago wore a breechclout, moccasins, leggings and robes of dressed skins. The advent of the French trader added to their dress, but at all times we find both men and women combing their hair straight back, parted in the middle and tied behind their heads in braids, later decorated by ribbons. Thomas Anderson, who spent a winter trading with them on the Rock river in 1802, said that they were the most filthy, most obstinate and bravest people of any Indian tribe. When the French came they added blankets to their garb, white for winter and bright colors for the summer.

In the governor's reception room in the state capitol at Madison, Wis., the surrender of the noted Chief Red Bird, which ended the Winnebago war in 1825, is cleverly depicted, Red Bird, the prisoner, is pictured as having one side of his face painted red, the other intermixed with green and white, clothed in a Yankton suit of dressed elk skin, perfectly white and as soft as a kid glove. It consisted of a jacket, ornamented with a fringe of the same material and enriched with blue beads.

On his feet he wears moccasins, and on each shoulder, in place of an epaulette, is fastened a stuffed red bird. Around his neck hang strands of wampum of various lengths, and he holds a war pipe in his hand, ornamented with dyed horse hair and feathers of birds.—Detroit News.

Mrs. Theodore Roosevelt, widow of the former American president, who is in France, visited the grave of her son, Quentin, who was killed at Chateau Thierry while serving as an aviator in July, 1918. She was accompanied by her son Kermit.

What does not that word cheerful-ness imply? It means a contented spirit; it means a pure heart; it means a kind and loving disposition; it means humility and charity; it means a generous appreciation of others, and a modest opinion of self.—Thackeray.

Burmese Fisheries.
At auctions of leases of government fisheries in Burma only Burman fishermen or their descendants are allowed to bid. This rule, in force for fifty years, limits competition and keeps speculators from raising the price of fish, the food of millions.

**HERRICK
REFRIGERATORS**

The Big Difference In Refrigerators

The main object of any refrigerator, of course, is the preservation of foods. The refrigerator that will keep foods in perfect condition longest is naturally the refrigerator you want—provided it doesn't increase your ice bills.

The Herrick answers those requirements with facts—not claims. And it does even more. It actually decreases your ice bills while giving you more effective food preservation.

And why? Simply because the Herrick is far more than an ice box—far more than a cold storage place. It is built on the scientifically demonstrated principle that more than merely cold air is necessary to keep foods in good condition for any great length of time.

Perhaps the biggest essentials to scientifically correct refrigeration are—

- No. 1. Circulation of cold dry air.
- No. 2. Effective insulation.
- No. 3. Air-tight construction.

That the Herrick has these necessary essentials is a demonstrated fact.

Many proofs of the truth are visible even to the least informed purchaser. Others are hidden within the walls of the refrigerator, but nevertheless there, performing their functions so important to good health and economy.

GRANGE MEET

Logan Elm Served Lunch in Honor of Mother's Day.

The regular meeting of Logan Elm grange was held at the school house Tuesday evening, June 3. Eighty-five members, several visitors and a number of children were served to a lunch in honor of Mothers' day.

The chairman of the lunch committee, Mrs. Charles Mowery, with her helpers, Mrs. Harry Dresbach, Mrs. George Jury, Mrs. Frank Wharton, Mrs. Samuel Boggs, Miss Hazel Dumm and Miss Alda Bartley served strawberries, ice cream, angel food cake and coffee. The tables, decorated in pink, green and white with white candles in glass holders were beautiful. The younger girls of the grange carried the trays and helped in serving. Music by the Grange orchestra. Mr. James Mowery, Miss Mary Dresbach, Miss Ruth McKenzie, Mrs. Ralph Boggs and Mr. Glenn Rader was enjoyed thruout the evening. This orchestra is proving a great help in Grange programs.

The grange has sadly missed our lecturer, Miss Hannah McKenzie, who has been quite ill for the past three months. Overwork, complicated by mastoid trouble, has confined her to her home, but we are glad to say she is far on the road to recovery and the grange sends her all good wishes.

To return the courtesy of Washington grange which presented a fine program a few weeks at our grange, the Logan Elm grange, will prepare a program to be given in the near future.

A survey will be made soon in Pickaway township to add new members to our rapidly growing grange. Any one in the township who wishes to join, please hand in his name to any Logan Elm granger. We need you all and you all need us.

Don't Be an Easy Mark.

A Philadelphia savant says: “If the chalaza of an egg is well defined it is fresh.” Insist on the grocer showing you the chalazas, or chalazil, of the eggs you purchase. You'll have to carry your eggs home in a pall, but what of that?—Boston Transcript.

His Last Reason the Real One.

There is an editor down on Park Row who is a professional "anti"—a part of the eternal no—among his friends. In any gathering he always takes the view that others oppose. As a result he is not extremely popular. Somebody asked him the other day what was the reason for his obstinacy. "Well," he said, "anybody can be popular just by being agreeable. I like being unpopular, and besides I've got dyspepsia."—New York Times.

REPUBLICAN CANDIDATE.

John E. Walters of Circleville township, will be a candidate for nomination for county commissioner in the Republican primaries August 12.

THE MENDER OF MEN.

Winter's done breaking and bending
us down—

And here comes the mender of men up
the street!

Spring, with magnolias all over her
gown!

Spring, with a song on her lips rosy
sweet!

Mender of men with the beauty of
life,

Nature's elixir, the honey of joy!

Turning us back from contention and
strife

To the magic of being a boy!

Oh, yes sir, our shoulders were
drooping so low!

Oh, yes sir, we'd suffered from sleet
and from snow!

But aching and twitching and sorrow
and care—

Spring will be mending them now
with her air!

Mender of men, with that lilac array,
That smile and that song that she
knows—

Spring with the wine of her beautiful
day

And the bloom of her gardens of rose!

Not yet the junk heap; don't worry
for that!

Lift up your heads, men, and toss up
your hat!

All that was dross in us, all that was
sore,

Is going to be healed, Lady Spring's
at the door!

Spring, the sweet mender, whose
medicine seems

So pleasant to take, and so fine—
Like a cup of the morning with
sparkle of dreams.

And a bit of God's live in the wine.—
Baltimore Sun.

USEFUL HINTS ON
CARE OF CLOTHESEnglish Writer Tells How to
Preserve Garments.

Good clothes need care. Many a man spends much money on his personal appearance, but is so untidy or so neglectful of the proper care of his clothes that very soon expensive suits become shabby.

It is never a good policy to wear the same suit consistently throughout the week—if it is brought into use alternately with another it will last as long again, for when "off duty" the wool has a chance to regain its vitality. The same idea is at the back of the theory that a man should have two sets of razors—when the one is resting the steel can recover its temper.

If clothes are to be preserved they must be kept free of dust, says Fout-hill Beckford in the London Mail, and this can only be done by a thorough brushing every time they are taken off.

All pockets should be emptied, for, strange as it may seem, it is the little collection of grit and tobacco that rot the fabric. Of course, the other great hole makers are moths and these must be avoided by the removal of all stains and spots of grease which attract them and encourage them to feed. Constant brushing and plenty of fresh air are the great enemies of moths and will put them to rout every time.

Some people find difficulty in removing stains, and therefore, a few hints as to the proper antidotes may not come amiss.

Perhaps the most common stain of all is that of ink. Here I would advise that the spot be soaked in strong salt water and rinsed in a solution of ammonia. The salt changes the nitrate of silver in the ink into chloride, and this is naturally dissolved by the ammonia. Ammonia will also remove indelible pencil, and, if followed by a wash of solution of soda, will also take out all grass stains.

Oil and grease should be treated with benzine covered with Fuller's earth or powdered chalk and left in the sun for a few hours.

For rust I recommend lemon juice and salt or oxalic acid. This last, however, requires great care, for if not properly used it injures the fabric. Tar should be softened with glycerin, anointed with benzine, and then washed in soda water and ammonia.

As regards cleaning, the dry process is best, for water should not be used on woollens. Moreover, great attention must be paid to the pressing. If the iron is too hot all the life will be taken out of the fabric.

It will not be necessary to press woollens with great vigor, if only they are given a little care and attention when they are removed from the body. They should be brushed and then hung on a trouser hanger, or, if this is not available, over a tall chair with the body toward the ground.

Sugar Prices Drop.

New York, June 6.—The price of refined decreased sharply when raw sugar dropped to 3 cents a pound. Federal Refining company reduced sugar 10 points to 6.30 cents. Other refiners, including the American Sugar Refining company, Arbuckle Brothers and Warner Sugar offered refined sugar at 6.4 cents a pound and the National Sugar company quoted 6.5. Each company guaranteed shipment at these prices.

Twenty-eight Albanian rebels and 33 government soldiers were killed in an hour's battle near Tirani, Albania.

FIFTY VOLUMES

"Chronicles of America" Make Delightful
Summer Day Reading.

A suggestion for summer reading is offered by the public library in the Yale university "Chronicles of America" series. This set of fifty little volumes, of handy pocket size, offer profitable recreation for spare moments or hot or rainy days.

Every phase and period in our country's history is treated in these volumes, which have been written by authors who have made a special study of the part about which they have written. When you consider that such a writer as Mary Johnson, author of "To Have and to Hold" has written the volume on "The Pioneers of the Old South," Stewart Edward White, author of "Gold" the one on "The Forty-Niners" and Emerson Hough, author of "The Covered Wagon" the one called "The Passing of the Frontier" you can judge the attractiveness of their style.

Another thing which makes these books unique is that Yale university, which sponsored their publication, is back of the project to reproduce the main events of American history in historically correct films, known as the "Chronicles of America Pictures." Thirty-one of these pictures have already been made and several of them have been shown in Circleville. The next one to be shown will be "Daniel Boone." This will particularly appeal to all the boys and men who never seem to tire of reading of this hero of early Ohio and Kentucky history.

PERSONALS

John Strahm was a business visitor in Columbus today.

N. E. Newlon is attending the Prohibition convention in Columbus today.

Mrs. L. F. Mason, of Dayton, who has been visiting Mrs. Sallie Fowler, went to Cleveland today.

Misses Dora and Virginia Nye and Mrs. Bell of Chillicothe, were guests Thursday of Misses Harriet and Mary Marfield.

William Heeter, of Williamsport, accompanied his granddaughter, Miss Lucile Collins, to her home in Columbus today.

Mrs. Carrie May went to Columbus today to meet her granddaughter, Virginia May, of Findlay, who will be her guest for several weeks.

Russell Drum, a student at Marietta has arrived home. He will assist his parents at the Scioto Valley Traction station during the summer vacation.

Joseph Lynch, Rowe Gussman, Bryce Briggs and Jack Ryan attended a meeting and reunion of the Rainbow division, 166th regiment which met at the Southern hotel, Columbus, today.

W. J. Ilger, of Ashland, utility man for the Logan Gas company, is a business visitor in the city. Mr. Ilger was a former newspaper man and was employed on the St. Paul Globe and other Minneapolis and St. Paul papers.

AT THE COURT HOUSE

Released on Bond.

Frederick Congrove was placed under arrest Thursday on a charge of failure to provide for his child. The charge was preferred by Georgia Cromley. The accused appeared before Justice E. C. Friece and gave bond in the sum of \$500 for his appearance Monday morning at nine o'clock.

FINEST FLYERS IN MAIL SERVICE

One U. S. Pilot Has Covered 210,381 Miles.

The air mail service bows to no aggregation of flying men in the world. Carl F. Egge of Washington, general superintendent of the air mail, frankly believes he has the finest and best-trained group of flyers on earth and he is proud of every mother's son of them.

The custodians of the Collier Trophy agree with him, having awarded it two successive years to the air mail service.

The excellence of the air mail service personnel is not confined to the pilots, who daily hurdle through the air at tremendous speed to advance the transcontinental mails between New York and San Francisco. The ground force, which keeps the mail in shape for the flyers' gruelling work is as highly skilled in its line as are the daring pilots who handle the sticks in the air.

Service Has 79 Airplanes.

At the present time the air mail service has 79 planes in going condition and always ready for the air. All of them are rebuilt De Havillands—rebuilt by the mechanics of the service—many of them repeatedly rebuilt. The policy followed by Mr. Egge is to take down a plane after it has flown 500 hours. After every 500 hours, therefore, a mail plane is virtually rebuilt. A careful log is kept of the performance of every plane in order that this policy may be rigidly adhered to.

Occasionally a mail pilot crashes and is killed, but the number of fatal crashes is small when compared with the hours and miles flown on regular schedule. During the current fiscal year the air mail service has lost three splendid flyers.

James F. Moore, considered one of the best and most careful of the mail pilots, "flew into the ground" near Cheyenne, Wyo., and nobody will ever know the actual cause of the accident. The air was clear, but he was flying low on account of a stiff head wind in the higher altitudes. It was very cold. An icicle may have dropped off the radiator and smashed his goggles. He may have had heart trouble.

Landed at Full Speed.

One farmer said he was flying in a circle evidently looking for a place to land and suddenly turned the nose of the plane downward and flew into the ground at full speed. Another farmer declared he was flying straight ahead at a great height, so high he could not tell whether it was a mail plane.

The two other fatal crashes occurred in Ohio. Pilots Harwell Thompson and Howard C. Brown were the men. So far as the experts could determine, neither of these crashes was due to mechanical defects in planes or motors. They are charged up to the natural hazard of the flying game. (B. H. Pearson was killed in flight March 7, last, in Pennsylvania.)

Every mail pilot is a veteran of the military service, having served either as an active flyer or a civilian instructor during the World war.

During the last fiscal year the mail pilots flying over the 2,680-mile route from New York to San Francisco covered 1,809,028 miles, carrying an estimated total of 67,875,840 pieces of first-class mail. The appropriation made by congress for this service was \$1,900,000, while the expenditures totaled \$1,774,151.85.

Individual Records.

Pilot E. H. Lee, Maywood, Ill., holds the individual record for number of hours in the air, with 2,271 hours to his credit and a mileage of 189,616. W. C. Hopson, Omaha, Neb., with 2,127 hours and 22 minutes in the air, has the mileage record, having covered 210,381 miles up to February 29.

This year the postmaster general asked for \$3,000,000 with a view to putting in a regular day-and-night air mail from coast to coast. The director of the budget cut the figure in half, approving only \$1,500,000, which would enable the air mail service to carry on during the fiscal year beginning July 1 as at present, flying only by daylight.

The house appropriations committee passed the item as approved by the director of the budget, but it was knocked out on the floor of the house on a point of order made by Representative Cramton of Michigan. When the bill reached the senate committee this item was promptly restored and reported back to the senate. It is certain to remain in the bill.

Amendment for \$3,000,000.

Meanwhile Senator Phipps of Colorado has presented an amendment giving the air mail service the \$3,000,000 requested in order that this modern method of transportation may be increased to maximum efficiency by maintaining regular day and night service, 28 hours between Gotham and the Golden Gate.

A strong fight will be made in the senate to pass the Phipps amendment. The lighted airway between Chicago and Cheyenne was long since completed and successful day and night tests made over a period of one week last fall. In support of this regular through mail service from coast to coast it is contended that the air mail must compete with other means of transportation—railroads and automobiles—which travel night and day and should be provided with the means necessary to give it the maximum degree of efficiency.

Should the fight for the \$3,000,000 appropriation be successful, through service will be established next summer.

A part of the money, however, will be expended on new planes with a slower landing speed. The De Havillands have given remarkable service and are perfectly satisfactory for day flying. However, they have a landing speed of 60 miles an hour. With only a limited area on which to land at night, the postal authorities want planes with a slower landing speed, contributing to the safety of pilots, planes and mail cargo. These planes would be used on the lighted airway between Chicago and Cheyenne.

Example of Good Service.

Recently an air mail plane and pilot were sent to Alaska to establish a route between Fairbanks and McGrath, a distance of 360 miles. The pilot has made two trips. The time required for the round trip is seven hours, compared with 18 days via the dog sled route. This is one of the striking examples of the differences between the air mail and other available means of transportation.

From May 15, 1918, when the first air mail route was established, until December 31, 1923, a total of 30,903 trips were attempted, of which 948 were uncompleted. A total of 7,152,245 miles were traveled, a 91.83 per cent performance. Up to December 31, last, the total number of letters transported via the air mail was 225,769,520 and the total cost \$3,204,643.

There were many forced landings from one cause, or another, during the period 1918-1923. The number credited to mechanical causes was 1,549, while forced landings charged to other causes numbered 2,041. The great majority of forced landings, of course, involved no serious damage to planes, or injury to pilots. Probably not one forced landing in 50 involved other than minor damage and many of them occurred during practice flights.

Court Holds Flying Over Land Is Not Trespass

The old common law maxim, "whose the soil is, his it is from the heavens to the depths of the earth" was overruled in a decision by Judge John C. Michael of the District court at St. Paul, Minn., in a suit for damages brought by a local property owner after an airplane made a forced landing on his property. The plaintiff sought also to enjoin the defendant from flying over his property regardless of the altitude of such flights.

"Condemnation of air lanes is not feasible because aircraft cannot adhere strictly to a defined course," Judge Michael's decision said. "The air, so far as it has any direct relation to the comfort and enjoyment of the land, is appurtenant to the land, but to contend that it is part of the realty, as affecting the right of air navigation, is only a legal fiction, devoid of substantial merit."

Judge Michael said that while there was some danger to persons and property from aircraft, accidents were infrequent and "this hazard is infinitely less than encountered in every walk of life from various other causes."

While granting the plaintiff damages the judge, in refusing the injunction, said that modern progress and great public interest should not be blocked by unnecessary legal refinements.

Austrian Red Cross to War on White Plague

In carrying on the war against tuberculosis, the Austrian Red Cross has recently reopened the big sanitarium at Grimmerstein, located in the mountains at about the same altitude as the world-famous health resorts of Davos and Leysin, says a report in the American Red Cross.

The history of Grimmerstein sanitarium has been rich in events. The main building was created by the White Cross society and taken over by the Austrian army as a sanitarium for 3,000 tuberculosis soldiers. The revolution following the war put an end to this plan. Because of governmental post-war economies the sanitarium was closed in 1922. But after this step was taken the Austrian Red Cross took over the sanitarium, readapted the buildings and continued the fight against tuberculosis, particularly among women and children.

An entire trainload of children was admitted to the hospital shortly after a vigorous campaign by the Austrian Red Cross. The cost to the patient is about \$1 a day. Those who are unable to pay are carried along by the local authorities.

Lost Dog Travels 1,600 Miles to Reach His Home

G. F. Brazier has been known as the proprietor of a restaurant at Silverton, Ore. But now he has become known as the owner of a collie dog. Mr. Brazier takes pride in the fact.

Last summer Brazier made a motor trip to Indiana, but while crossing Iowa lost his collie, a member of the party. That was six months ago.

Mr. Brazier returned to Silverton meanwhile without hope of recovering his friend. But the dog walked into his restaurant a few days ago.

The collie's toenails were worn off with his long hike of nearly 1,600 miles. He was in good condition, apparently, looking well fed, but oh, so tired!

Woman Driver Collapses

Mrs. Homer Carnes of Baker, Ore., fell unconscious while driving her automobile after bringing the car to a complete stop and died several hours later in a local hospital. Mrs. Carnes was found by her husband, a breeder of thoroughbred Jersey cattle of this district, who was following her, driving a hay wagon.

DEMOLAY ORDER

Main Object is the Development of High Grade Citizenship.

Frank S. Land, grand scribe, Order of DeMolay, with headquarters in Kansas City, Missouri, has announced the appointment of three new state deputy counsellors by Alexander G. Cochran, grand master counsellor. These appointees are George F. Roof, Newport, Vermont; Arthur R. Robinson, Indianapolis, Indiana and Charles H. Spillman, Edwardsville, Illinois. Each will head DeMolay in his state.

The order was founded by Mr. Land in Kansas City, April, 1919. Its initial membership was nine young men sixteen to twenty-one years old. There are nearly 1,300 chapters of approximately 125,000 members. Besides the membership in the United States, there are chapters in Canada, Australia, Mexico, Porto Rico, Philippine Islands, Italy and France. One of the main objectives of DeMolay is the development of high grade citizenship.

SUNDAY SCHOOL CONVENTION

The Pickaway County Sunday School association held its annual convention today at the Methodist church in this city.

This is the fifty-seventh annual convention. The convention is being attended by delegates from every Sunday school in the county. President, Rev. E. D. Paulin, of the Evangelical church presided.

Secretary G. P. Hunsicker, who has been the association's secretary for the past 27 years read his annual report. The report of the treasurer, George F. Grand-Girard, was also submitted and read at this meeting.

The convention will close with this evening's session.

MISS MENGERT RESIGNS.

Miss Laura Mengert, who has been director of the county Normal school for many years, has resigned to accept a position with the McMillan Publishing company, Chicago, Illinois. This firm is publisher of school books.

Miss Mengert's work will be to demonstrate a series of new readers recently published by this firm and her territory will cover thirteen states from Ohio to Nebraska. She will be paid \$4,000 for her work.

METZGER-TREGO DISSOLVES

The Kingston Ford and Fordson agency, which for the past year or more has been known as The Metzger-Trego Auto Sales has been dissolved, Ralph Metzger having bought the entire interest of Mr. Trego and from now on he will be the sole owner and proprietor and the business will be conducted under the name of the Metzger Auto Sales.

No Longer Clerk.

I am no longer . . . clerk to the firm of, etc.; I am Retired Leisure. I am to be met with in trim gardens. I am already come to be known by my vacant face and careless gesture, perambulating at no fixed pace nor with any settled purpose. I walk about, not to and from. They tell me a certain cum-dignitate air that has been buried so long with my other good parts has begun to shoot forth in my person. I perceptibly grow into gentility.—Charles Lamb.

The Main Point.

"Your society was formed to decide a number of questions of great scientific importance?" "Yes. We arranged to consider the manifestation of the psychic impulse in protoplasmic life and the molecular energy developed by the prismatic transmutation of light waves and kindred topics." "And have you done so?" "No. We've only been in session a week. We haven't yet decided the question of who is to be chairman."

Candlestick for Campers.

The bracket of a candlestick designed for campers terminates in barbed points to grip a tree trunk or other upright support.

LIBRARY HOURS.

From June 9, continuing thru July and August, the public library will, as usual, close at 6 p. m., with the exception of Saturdays when it will remain open until 8 o'clock.

A six weeks apprentice class at the public library begins June 23. High school diploma a requirement. For further particulars apply to the librarian.

Buy a new Straw Hat for Decoration day. You can find the best assortment and the cheapest prices at Caddy Miller's Hat Shop.

It costs less to paint than to repair
A coat of good paint on your barns and other out-buildings costs you a lot less than the repairs you'll have to make if you don't paint in time. Don't let the weather get a chance at your barn—don't let it get bare and dingy looking. Paint now—with Lowe Brothers Barn Paint. It covers and hides better than ordinary paints. That makes it cost less at first. And it holds its color and wears longer too. That makes it cost less in the end.

Lowe Brothers
BARN PAINT

We sell Lowe Brothers Paints, Varnishes, Stains, and Enamels. But we do more than that—we place our long experience in the paint business at your service, to help you, no matter what your needs are. Don't hesitate to ask.

Barrere & Nickerson

SPECIAL POLICE.
Chief of Police and Mrs. John Myers were called to Chicago, Illinois, Thursday by the serious illness of their son's wife, Mrs. Noah Myers. During the absence of Mr. Myers, Ethridge Justice will act as assistant to Motorcycle Officer McCrady. He was sworn in as a special policeman.

Under the Golden Rule.
When the Golden Rule becomes the law of human life all this (industrial dissension) will be changed. The employer will ask how much he can pay the worker, not how little. The workman will ask how much he can do, not how little.—Benjamin Harrison.

Lights and Lesser Lights.
If you have ever crossed the ocean you know that one of the first glimpses you get of America is the flash of Thatcher's light, off Cape Ann. It can be seen a very great distance. Josephus, the historian, writes that there was an ancient lighthouse which could be seen forty-two miles. It was erected by Ptolemy Soter in the island of Pharos, off the coast of Alexandria, Egypt.—Boston Post.

Chinese Custom.
In China when a pupil is reciting his lessons he turns his back to the teacher, says an exchange. Over here he occasionally has to do that, but it's not for recitation purposes.

RIPE OLD AGE

Peter Myers, of Tarlton, Died in His Ninety-Fifth Year.

Peter Myers died at his home in Tarlton Thursday afternoon at 4 o'clock in his ninety-fifth year. The deceased was born in Green county, Pennsylvania, April 12, 1830, and was the son of John and Mary Kraus Myers. With his parents, he came to this state at the age of seven and settled in Logan county and came to this county when he reached his majority and had lived here ever since. He married Miss Mary Karsner June 22 1862, who died November 6, 1889.

One daughter and three sons survive. They are Sarah E. wife of Harvey A. Mowery, of Tarlton; John E. Myers of Groveport and George M., and Charles P. Myers, of Columbus.

Mr. Myers was a member of the English Lutheran church. He was a farmer by occupation. He served twelve years as a school director.

The funeral services will be held at the Methodist church at Tarlton Sunday forenoon at ten o'clock. Interment at Tarlton.

TONSILS REMOVED.

Richard, the little son of Mr. and Mrs. Ralph Bartholomew underwent an operation for the removal of his tonsils Wednesday. The operation was performed by Dr. C. G. Stewart.

Aspirations.

The chief use of any man to the world is the influence of his aspirations. Not achievements alone can determine a man's value to us; but the vision of the ideal which he has and gives to us, in words, on canvas, in marble, in stately piles of architecture.—Solon Lauer.

Workers of Lancashire Prove the Best Spinners

It's a common saying in the cotton trade that Lancashire spins finer every day. So the spinner must be given some credit for the production of many of the beautiful fabrics which are now made from cotton.

But fine spinning is useless without good weaving, and here Lancashire is ahead of all rivals. It has the finest operatives in the world, with the inherited skill of their forefathers in their fingers. Threads are joined by a twist of the fingers, quicker than the eye can see, and the utmost is obtained from all the miraculous machinery.

Cotton is turned into velvet fit for a queen under their skillful hands, and gossamer fabrics, both stronger and finer than silk, emerge from the clanging looms. Every color of the rainbow is seen, and the studios of Paris give of their best in designs.

The cloth of Lancashire supplies the fabric for motor tires, covers the furniture, makes beds soft and comfortable, offers smart shirts that keep their color forever, and provides dainty frocks and lingerie for wives and children.—London Mail.

REMOVAL NOTICE.

Summer Food Protection

It is economy as well as a guard to better summer health to protect your food from deteriorating during the warm weather by keeping it in a properly constructed Refrigerator.

The Leonard is so made from materials of the highest quality that the ice consumption is held at a minimum. At the same time a perfect circulation of ice cold air keeps every part of the refrigerator sweet and clean and at a temperature sufficiently cold to keep food from spoiling.

The amount you save in ice and food during one season will go a long ways toward paying for a Leonard Refrigerator.

Let us show you the insulation of the
LEONARD CLEANABLE
consisting of eleven walls.

"SELLING MOST, WE SELL FOR LESS."

CONSTABLE RESIGNS.
Constable Clarence Robison has resigned as constable and will assist his father, L. N. Robison, in the cement contracting business.

Freak of Nature.
One might think that the powerful bumblebee and the milkweed would make ideal partners, but such is not the case says the American Forestry Magazine of Washington. These remarkable plants, which not only flow with honey, but also invite their insect guests by a strong honey scent, are utterly ignored by the big hungry bumblebee.

Plan Huge Reservoir
Engineers estimate that five billion five hundred million cubic feet of water will be stored in the reservoir to be built by the Canadian government through the running streams commission on the Riviere du Loup, north of Louiseville, in the St. Maurice district of Quebec.

Size of Atom
Scientists say that the actual size of the atom is so small that a million placed in a row, like marbles in contact, would "occupy a length less than the thickness of the thinnest sheet of tissue paper."

Figureheads on Ships
Time was when a vessel would as soon have thought about starting out with a leak as without a figurehead, and the farther back one goes the more was this a fact. The earliest discovered model of a figurehead belonged to a pleasure boat of one of ancient Egypt's dark-eyed queens, being in the form of a lotus, and so very much to her mind and heart that she had it buried with her. But warships with animals carved upon the prows are shown to have existed in Egypt before the day of this queen; in fact, as early as 1000 B. C., writes an authority on maritime history. The subject usually corresponds to the name of the ship.
Apparently each particular nation had a favorite emblem. The owl was as conspicuous on the Athenian ships as was the cock, that emblem of vigilance, on the prows of the Phoenixians. The shining blade of St. Theodore, the patron saint of the Venetians, was their favored figurehead.—Detroit News.

Making Herself Clear
An Indian paper furnishes us with a recent specimen of "English as she is wrote." It is copy of a letter sent by a woman teacher to the director of education, Manila, and reads: "Dear sir, I have the honor to resignate as my works are many and my salary are few. Besides which my supervising teacher makes many loving to me to which I only reply, 'Oh not, Oh not!'"—Very respectfully, Josefina."

Curious Boulder
A tremendous boulder, weighing some 17 tons and perched upon a flat rock, apparently so nicely balanced that a glance at it almost convinces a person that but little force is needed to throw it over, is to be seen in the Berkshire hills of Massachusetts, not far from Pittsfield. It is called the "Balance Rock," but, despite its name and appearance, is firmly fixed and makes no movement whatever.

Opera 323 Years Ago
The first opera ever performed publicly was Jacopo Peri's "Eurydice." The original performance took place 323 years ago at the festivities which marked the marriage of Maria de Medici with Henry IV of France. Since then "Eurydice" has never been seen except once at Milan.
With Giulio Casocini and Emilio del Cavalleri, Jacopo Peri is regarded as the discoverer of modern recitative. He is also the father of opera, which became possible once recitative was known.
In 1597 he himself appeared in the first work of the kind which he had composed. It was called "Diane." It was performed privately, and no trace of it survives. "Eurydice" was his second effort.—Detroit News.

Up Against the Real Thing.
Maurice was obstinate, and Robert, two years his senior, was endeavoring to make him mind. Finally he marched over to him, and, grasping him by the collar, shook him, and said, "Look here, young fellow, you haven't got your father to deal with this time."

FOR SALE.
Amicon brick block, consisting of two good store rooms with flat over both rooms with a frontage of 60 feet and a depth of 130 feet with an income 10% net; located, corner Main and Western avenue; this is ideal location for an oil station or a small factory. Besides the above building I have a small stove, safe, desk and wood partitions suitable for an office or store. For further information call CIRCLE REALTY CO.
W. C. Morris, Secretary.

Two Streams of Profit

CASH TO SELL
The minute you start using a De Laval you get something to sell for cash—cream; and in addition you get skim-milk to grow into another crop of calves, pigs and chickens. Two sources of profit, and a steady cash income every day.

SKIM MILK TO GROW ANOTHER CROP
This is the surest, safest and most profitable way of farming—and the De Laval Separator makes it possible. It is the original separator, skims cleaner, lasts longer, turns easier than any other. There are over 2,500,000 De Laval Separators in use the world over—about as many as all the rest put together. The De Laval has always led in every important separator improvement.

Cash Income every day

3juned6. Brunner's.

BOXING SHOW

Contestants Are Here and Seats Are Being Sold Rapidly.

All roads will lead to Circleville tonight when the Armory Athletic club will stage its monthly boxing show. The demand for seats has been exceptionally brisk since a large corps of visiting boxers has been working out at the Armory for the past two evenings.

Local fans appear to be quite impressed with Frankie Susnell's work-outs. He has been showing the local boxing enthusiasts more fancy tricks with an ordinary jumping rope than a monkey could with a mile of grape vine. Susnell and Soldier Johnny Mellow of Columbus will step ten rounds in the main go.

Al Leever arrived in the city Thursday from Dayton and looks to be in fine trim for his semi-final with Joe O'Malley. Al has made a big hit with the fans despite his short stay with Patterson and should he redeem himself tonight it is possible that Waldo and Al will again try conclusions and there are many who wager the family "jools" on little Al.

The prelims should furnish plenty of fireworks as all of these youngsters while not so scientific, they certainly throw lots of gloves. In the openers will be Knockout Porte, of Portsmouth Kid Mystery of Columbus and Red Jenkins of Circleville against Freck Greeno of Stoutsville.

It looks like a great old night for the lovers of clean boxing and a capacity house will probably greet the performers.

SOCIAL CALENDAR

Mrs. Austin W. Valentine and Mrs. G. L. Schiear held a reception Thursday afternoon in honor of the former's sister, Mrs. Charles Crites, of Stoutsville and the latter's sister, Mrs. Benjamin Wilson, of Cincinnati. The beautiful home of Mrs. Schiear was most artistically converted into a bower of this season's flowers, Solomon seal and golden fluer-de-lis, were arranged in baskets, carrying out the color scheme of yellow and white. During the "at home" two hundred guests called during the four periods from two to six o'clock. In the receiving line were the guests of honor; Mrs. Williams, Mrs. Crites and the hostesses, Mrs. Schiear and Mrs. Valentine. The assisting hostesses were Mrs. Nan Foresman, Mrs. J. W. Adams, Mrs. W. J. Graham, Mrs. Harry McMahon, Mrs. L. B. James, Mrs. M. H. Miesse, Mrs. E. W. Lutz and Mrs. E. S. Neuding. Miss Helen Schiear assisted by her youthful friends, the Misses Eleanor and Helen Snyder, Alice Adah May, Louise Mason, Lucile Rooney and Marian Hitler served ices. Guests were present from Stoutsville, Ashville, Waverly and Columbus.

FUNERAL OF CHARLES HALL.

The funeral services of the late Charles Hall were held Thursday afternoon at 4 o'clock at his late home on Watt street. Rev. Floyd E. Logee, of the Presbyterian church, officiated. He read the hymns "It is not Death to Die" and the poem, "Crossing the Bar." The pallbearers were Harry G. Stevenson, Wilson F. Cellar, Lloyd Black, of Lancaster, O. L. Cartright, Charles D. Wright and George F. Grand-Girard.

Those who attended the funeral from out of the city and accompanied the remains to his home town, Hopkinsville, Ohio, for interment were Mrs. Charles Hall, Miss Marie Hall, of Reading, Miss Lydia Kay, of Cincinnati and Mr. and Mrs. Lloyd Black and daughter, of Lancaster, and Miss Mae Hudnell, of this city.

FREE SCHOLARSHIP.

Free scholarship of twelve lessons in voice with Rev. Ellis Snyder at College chapel, Capital university Tryout Friday, June 13, at 2 p. m. Rev. Snyder studied under Louis Braille and Herbert Witherspoon and follows their teaching principles.

CEMENT—LIME.

AN ORDINANCE

No. 494. Fixing the standard of time for the City of Circleville, Ohio.
Be it ordained by the Council of the City of Circleville, Ohio,
Section 1. That Eastern Standard Time be and the same hereby is adopted as the criterion and standard of time in and for the City of Circleville, Ohio. That every clock or time piece maintained at the city's expense, or upon or in any public building belonging to said city of Circleville, shall be set and run according to said standard of time by the person or persons in charge thereof.
Section 2. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.
Passed by Council this 4th day of June A. D. 1924.
JOHN C. GOELLER
President of Council.
Attest:—Fred E. Nicholas,
Clerk of Council.
Approved by me this 4th day of June A. D. 1924.
GEO. M. FIFTZPATRICK
Mayor of said City.

TIDAL WAVE DATA AID TO SHIPPING

Safety Depends on Knowledge of Harbors.

"The recent groundings of the world's two biggest ocean liners, the Leviathan and the Majestic, show how essential to the safety of the world's shipping is an intimate knowledge of the tidal and current fluctuations of the world's great harbors," says a bulletin of the National Geographic Society headquarters, "and emphasizes the importance of one of the phases of the work of the United States coast and geodetic survey.

"New York harbor is not a single waterway, but a series of communicating ones, with two entrances from the sea. A territory larger than Massachusetts, Connecticut and Rhode Island together, drains into the Atlantic through three bays, four straits, and one great and several small tidal rivers. The fresh water from this large area complicates the problem of giving the navigator definite data as to flood and ebb and current so that he may safely maneuver his craft at all times.

Liner's Needs Considered.

"The United States coast and geodetic survey has given to navigators a definite picture of the conditions they must meet in berthing their great liners; to wharf engineers the information necessary to the proper arrangement of docking facilities, and to sanitary engineers new and basic data that has an important bearing on the problem of sewage disposal.

"Working quietly on the great fundamental problems of navigation, the coast and geodetic survey doesn't make much copy, and the world at large knows comparatively little of one of the most highly technical of the scientific bureaus of the United States government.

"And yet every ship that sails the seas, every passenger that comes into port, every article on the supercargo's manifest are served in a very concrete, if unsuspected, way by the survey.

"Two things the navigator must have if he is to bring his craft with its human and material cargo safely into port—a knowledge of the tricks of the compass and a picture of channel and harbor conditions.

Needle Full of Vagaries.

"The needle of the mariner's compass has been shown to be as full of vagaries as mid-March weather. Men used to think that it could always be depended on to point to the magnetic pole. But local affinities distract it from its proper affection in ways that are sometimes startling. If the sailor has a sweetheart in every port, the magnetic needle has a secondary attraction in many quarters. Looking at a magnetic declination chart we see deeply waved curves which proclaim loudly the influence of these affinities in weaning the needle away from the 'straight and narrow' of its true direction. Magnetic surveys on the sea in general and along the coast in particular, are a supreme necessity in the accurate guidance of ships over the trackless ocean and into the world's ports.

"Examining the line of the 15-degree west declination, we find it sweeping over the sea in a northwesterly direction, with comparatively small variations from normalcy until it approaches the north shore of Massachusetts. There it swings radically to the west, and as land is reached swings back until it points almost due northeast at more than a right angle to its recent position as it rounds the Cape Ann peninsula.

"The same condition obtains in the 10-degree west declination which sweeps over the Atlantic toward New York. Approaching the waters between Long Island and Sandy Hook the needle adheres closely to its proper direction. But when it reaches the Hudson river it is pulled around until it seems to forget all about its fundamental affection and goes on a lark that causes it to swing around through almost or quite a quarter circle from its accustomed position.

"No wonder a magnetic survey is needed to warn the mariner of the vagaries of the magnetic needle when it permits itself to fall so fully under the spell of the Great White way that it wanders 90 degrees away from its path of solar duty.

Thorough Soundings Object.

"The need of more thorough soundings in harbors and on rocky coasts grows greater as the volume and complexity of shipping grows and the size of craft increases.

"Soundings made with lead lines can be depended on to discover the main underwater elevations, but the waters of the New England shores, the Pacific shores and Alaska abound in pinnacle rocks—Washington monuments of the sea. They rise to sharp points almost to the surface, which deflect a lead line, even though the lead may be a slender chance, land on top of them.

"Thus it came to be that they passed undiscovered and uncharted until some ship chanced to run afoul of one of them, as the United States cruiser Brooklyn did in the harbor of New Bedford, Mass.

How Wire Drag Is Used.

"Latterly a wire drag has been evolved. It is stretched between two launches or other boats which run parallel to one another anywhere from 100 to 25,000 feet apart.

"The lower wire sweeps through the water at a depth well below the keels of ships of the deepest drafts and any

SAME SMILING SMILE.

A. B. Vlerebome, of the firm of Vlerebome & Son, wholesale grocers, of Lancaster, was in the city today accompanied by L. E. Walton. The latter is on his maiden trip in this town seeing the drug and grocery trade and Mr. Vlerebome was seeing him thru.

It has not been many years since the rotund form of Berne, was seen back of the counter in the Weaver wholesale grocery in this city. Mr. Vlerebome still carries the same old smile he wore in those days.

Laundry Dries Fruit.

Drying fruits and vegetables is now a laundry by-product. The mechanical driers are thus made use of when not otherwise employed.
